MAIL ART 4 SENIORS

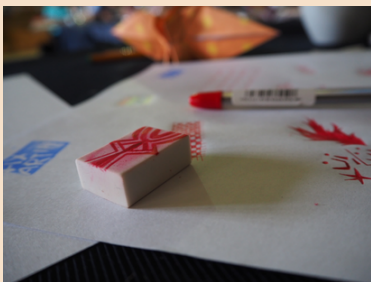

E-PLATFORM “ AT HOME

After several face-to-face meetings, workshops and training events with artists and seniors, intense communication and collaboration among partners and dissemination events, we have concluded our project with a Final transnational meeting in Bologna, Italy. A fruitful discussion went among partners regarding project finishing tasks.

3RD PARTNER
MEETING IN
BOLOGNA

Multiplier events were held by each partner in their countries at these last stages of the project. We had presented our project in all aspects to interested audience.

Co-funded by the
Erasmus+ Programme
of the European Union

During the lifetime of project we have had our seniors to manually create mail art and be exposed to several techniques involved in mail art. We have involved project themes to introduce our seniors to several awareness issues such as environment. We hope our seniors will have an opportunity both to contribute while crating meaningful work and to have pleasant leisure time practicing mail art 'at home'.

MAILART AS A
TOOL FOR
CHANGE

Our project results and all material developed could be found in e-platform <https://mailart4seniors.eu/elearning/> that is accessible through project's website <https://mailart4seniors.eu/>. E-platform also has an optional space where seniors and adult workers can register for training in distance.
